

EQDerivatives Announces Journal of Systematic Investing Editorial Board

A diversified Editorial Board of 50+ academics and practitioners across the globe.

Thursday, 12th December 2019

We are pleased to announce the Editorial Board of the Journal of Systematic Investing (JSI). The Editorial Board features more than 50 leading academics and industry practitioners considered as leaders and innovators in systematic investing across asset classes and markets.

The JSI Editorial Board is responsible for supporting and providing expert advice to the JSI Editor-in-Chief and Executive Editors. Members of the JSI Editorial Board review manuscripts accepted for submission, provide guidance on systematic investing initiatives, attract submissions, and promote the journal so it can meet its objectives. The JSI Editorial Board will also be a crucial source of feedback on the journal, its performance, growth, and the how the journal can further educate the institutional investing community, and promote greater evolution in systematic investing.

The members of the JSI Editorial Board are located globally, a representation of the broad reach of the journal. All members of the JSI Editorial Board are experts in systematic investing and are recognised globally by institutional investors as leaders and innovators in their respective fields. The full list of editorial board members is given on the next two pages.

About JSI

The EQDerivatives Journal of Systematic Investing (JSI) is the definitive venue that attracts and disseminates the latest academic and practitioner research in the space of systematic investing. As more assets become managed in a systematic manner, investment professionals seek to stay abreast of all the relevant academic and industry advances through JSI. The JSI features theoretical and practitioner research from leaders in systematic investing worldwide. **Amit Goyal**, Professor of Finance at the University of Lausanne, is the Editor-in-Chief of JSI. **Campbell (Cam) R. Harvey**, Professor of Finance at the Fuqua School of Business, Duke University and a Research Associate of the National Bureau of Economic Research in Cambridge, Massachusetts, is the Academic Advisor to JSI. **Nick Baltas**, Head of R&D of Systematic Trading Strategies (STS) at Goldman Sachs and visiting researcher at Imperial College Business School, and **Spyros Mesomeris**, Head of Global Markets Quantitative Investment Strategies Structuring at UBS are Executive Editors of JSI.

About EQDerivatives

EQDerivatives is the premier platform positioned towards institutional investors active or interested in x-asset volatility, alternative risk premia, ESG, alternatives, and other systematic solutions. We publish a quarterly magazine, online news & features, peer-based investor research, and provide data and events for institutional investors globally. The EQDerivatives mandate: to connect and educate the leading practitioners and the wider institutional investing market globally by delivering the latest strategies, approaches and innovations in systematic solutions and the wider quantitative investing universe.
